

LOUVRE²⁰¹⁸

Manuela

Este año además de presentaros las nuevas propuestas para nuestras mesas, quiero que conozcáis a *Manuela*.

Ella tiene 86 años y vive en *Valencia*; le encanta cocinar y su plato estrella es el “*putxero*” valenciano.

No siempre vivió cerca del mar, ya que nació en Cañete (*Cuenca*), pero desde muy pequeña ha sentido una pasión especial por esta tierra... su olor, su gente, su luz... Todo ello lo ha reflejado siempre en su forma de vivir y en sus decisiones. Si hablamos de decisiones relacionadas con la mesa, un imprescindible en la suya es el “*Matisse Granate*”.

*This year, as well as introducing our new ideas for your table, I would like you to meet *Manuela*.*

*She is 86 years old and lives in *Valencia*; she loves cooking and her signature dish is the Valencian stew “*putxero*”.*

*She hasn't always lived near the sea, as she was born in Cañete (province of *Cuenca*), but ever since she was young she has felt a special passion for this region – its smells, its people, its light – all of which has been reflected in her way of life and in the choices she has made. When it comes to choosing her tablecloth, the claret-coloured *Matisse Granate* is a must.*

En la **Colección Louvre** las calidades son el resultado de diferentes procesos productivos utilizados para su elaboración. Todos comparten la máxima solvencia anti manchas. Diferenciamos tres grandes grupos: **Fibratex, Cuadro Tejido y Jacquard**. Están disponibles (según referencia) en tres anchos 140, 160 y 180 cm. El 180 cm es la mejor opción, si se desea una mayor caída del mantel obteniendo una notable mejoría visual de la mesa.

Recorra junto a nosotros estas propuestas que esperamos sean “arte en la mesa”. Busque el distintivo en el catálogo. Uso especial hostelería.

In the **Louvre Collection**, the different material qualities are the result of various production processes used in its manufacturing. All these processes share the same maximum stain resistance. We distinguish between three main groups: **Fibratex Fabrics, Woven fabrics and Jacquard**. They are available (depending on item type) in three widths of 140, 160 and 180 cm. The 180 cm-width is the best choice, if a larger drop of the tablecloth is required, thus obtaining an improvement in the visual appearance of the table.

Take a look together with us of these product proposals that will hopefully become “art on your table”. Look for the distinctive sign in the catalogue implying specific use in the hospitality industry.

In der **Louvre-Kollektion** sind die unterschiedlichen Stoffqualitäten das Ergebnis von den verschiedenen Produktionsprozessen, die in ihrer Herstellung verwendet werden. Bei all diesen Verfahren erzielt man eine maximale fleckabweisende Wirkung. Wir unterscheiden zwischen drei Hauptgruppen: **Fibratex, Stoffe Gewobene Stoffe und Jacquard**. Sowohl die Stoffe aus Fibratex wie die gewobenen Stoffe sind (je nach Artikel) in drei Breiten von 140, 160 und 180 cm erhältlich. Die 180 cm-Breite ist die beste Wahl, wenn das Tischtuch eine flächenmäßig größere Abdeckung ermöglichen soll, damit ein deutlich besseres Erscheinungsbild des Tisches erreicht wird.

Schauen Sie sich zusammen mit uns diese Produktvorschläge an, die hoffentlich “Kunst auf Ihrem Tisch” werden können. Beachten Sie das Markenzeichen im Katalog, das die spezielle Verwendung im Gastgewerbe anzeigt.

Na **Coleção Louvre** as qualidades são o resultado de diferentes processos produtivos utilizados para a sua elaboração. Todos compartem a máxima solvência anti-nódoas. Diferenciamos três grandes grupos: **Fibratex, Os tecidos e Jacquard**. Estão disponíveis (segundo referência) em três larguras: 140, 160 e 180 cm. O 180 cm é a melhor opção se desejar um maior cimento da toalha, obtendo uma notável melhora visual da mesa.

Percorra junto a nós estas propostas que aguardamos que sejam “arte na mesa”. Procure o distintivo no catálogo. Utilização especial hotelaria.

Dans la **Collection Louvre**, les diverses qualités sont le résultat des différents processus de production utilisés dans sa fabrication. Tous ces processus partagent la même résistance maximale aux taches. On distingue trois grands groupes: **Fibratex, Les Tissus et Jacquard**. Sont disponibles (en fonction du type de référence) en trois largeurs de 140, 160 et 180 cm. La largeur de 180 cm est le choix le plus approprié, quand une plus grande chute de la nappe est requise, en obtenant ainsi une amélioration de l'aspect visuel de la table.

Jetez un coup d’œil avec nous sur ces propositions de produits qui, nous l’espérons, deviendront “art sur votre table”. Recherchez le signe distinctif dans le catalogue qui montre l'utilisation spécifique dans le secteur de l'hôtellerie.

Marina y Mateo

Manuela se casó con Antonio, tuvieron dos hijos, Juan y Mario; y dos nietos, **Marina y Mateo**. Ellos viven en la playa de **El Puig** y lo que más les gusta es preparar galletas y pasteles. Con el Mediterráneo de fondo, y junto a su abuela, preparan su especialidad “**Coca de llanda**”. Entre sus manteles favoritos están el **Digital 19 y 43**. Mientras ellos disfrutan entre azúcares, Manuela está tranquila sabiendo que los niños están en buenas manos, ya que éstos manteleros gozan del certificado de uso alimentario.

Manuela got married to Antonio and they had two sons, Juan and Mario, plus two grandchildren, **Marina and Mateo**. They live by the beach at “**El Puig**”, and what they like doing best is making biscuits and cakes. With a backdrop of the Mediterranean, and together with their grandmother, they make their speciality, the Valencian sponge cake “**Coca de llanda**”. Among their favourite tablecloths are the **Digital 19 and 43**. While they get on with enjoying their sweets, Manuela can have peace of mind knowing that the children are in good hands, since these tablecloths have been approved for use in food preparation.

AVISO IMPORTANTE

Las mantelerías de la colección Louvre tienen un alto nivel de repelencia a todo tipo de manchas. Incluyendo las manchas de aceite, café, tomate... Haga la prueba, apoye el dedo sobre una mancha de aceite, o deposite una taza de café sucia por la parte inferior sobre nuestro mantel y déjelo un tiempo. Compruebe tras pasar un paño húmedo que la mancha no ha penetrado. El recubrimiento de nuestros manteles a diferencia de otros que encuentra en el mercado crea una película más resistente y duradera que protege al mantel sin perder el aspecto textil.

IMPORTANT NOTICE

The tablecloths from the Louvre collection have a high level of resistance to all types of stain, including oil, coffee and tomato stains. Try a test: press your finger onto an oil stain, or leave a coffee cup that's dirty underneath on our tablecloth and wait a while. After wiping it with a damp cloth, check that the stain has not soaked through. The coating on our tablecloths, unlike others on the market, creates a more resistant and durable film which protects the tablecloth without losing the visual appeal of the material.

- Verter el contenido resultante en la llanda a la que le habremos puesto previamente en la base un papel parafinado para impedir que se pegue.
- Espolvorear con abundante azúcar para que la capa superior de la coca quede crujiente.
- Precalentar el horno durante aproximadamente 10 minutos a una temperatura de 180 grados y hornear durante 35 minutos también a 180 grados.

- Sprinkle with plenty of sugar so that the top layer of the coca is crunchy.
- Preheat the oven for about 10 minutes at 180°C and bake for 35 minutes, also at 180°C.

Mario

De vez en cuando *Mario*, su tío, viene a visitar a Marina y Mateo. Él vive en *Morella* y le encanta pasear en bicicleta y disfrutar de la naturaleza. La montaña es su segunda casa y lo que más le gusta es escalarla. Otra de sus pasiones es la lectura y la escritura. Y entre sus preferencias para comer está “*la paella*”, eso si, con un buen mantel como el “*Brueghel Burdeos*” sobre su mesa.

From time to time, uncle *Mario* comes to visit Marina and Mateo. He lives in *Morella* and he loves going cycling and enjoying nature. The mountains are his second home and he likes nothing more than going climbing. Another of his passions is reading and writing. Among his favourite food is *paella*, with his table topped by a fine tablecloth like the “*Brueghel Burdeos*”, of course.

Paella valenciana

INGREDIENTES

- 400 gramos de Arroz Bomba
- 1 Kg. de pollo troceado
- 500 gramos de conejo troceado

- 200 gramos de judías verdes
- 100 gramos de garrofó fresco
- 100 gramos de tomate troceado
- 6 cucharadas de aceite de oliva

- Unas hebras de azafrán
- Pimentón rojo molido
- Una ramita de romero
- Sal

PREPARACIÓN DE LA RECETA

Vierte el aceite sobre la paella y enciende el fuego. Una vez el aceite esté caliente, añade el conejo y el pollo y sofíelos hasta que adquieran un color dorado. A continuación echa las verduras y rehógalas. Ahora vierte el tomate rallado y sofíelo removiendo constantemente.

Añade el pimentón y remuévelo apenas un instante, enseguida debes verter el agua hasta los remaches de la paella para evitar que se queme.

Añade el azafrán, el romero y la sal. Una vez que el agua rompa a hervir, déjala unos 5 minutos en ebullición con fuego vivo. A continuación baja a fuego medio y déjala cocer entre 20 y 30 minutos.

Aviva el fuego y añade el arroz. La forma tradicional de ponerlo es haciendo una cruz en el agua que está hirviendo y repartirlo de modo uniforme por la superficie del recipiente. Aprovecha ahora para probar y rectificar de sal.

Mantén el fuego fuerte durante 10 minutos y reduce el fuego a la mitad durante un tiempo parecido hasta que el arroz quede en su punto de cocción.

Valencian “Paella”

INGREDIENTS

- 400 g Bomba rice
- 1 kg chopped chicken
- 500 g chopped rabbit

- 200 g green beans
- 100 g fresh lima beans
- 100 g chopped tomato
- 6 tablespoons olive oil

- Some saffron threads
- Ground red paprika
- A sprig of rosemary
- Salt

PREPARATION METHOD

Pour the olive oil into the paella pan and turn on the heat. Once the oil is hot, add the rabbit and the chicken and fry them lightly until they turn a golden colour. Next add and lightly fry the vegetables. Now pour in the chopped tomato and continue to fry, stirring constantly.

Add the paprika and stir for just a moment; then, to prevent burning, you must fill with water up to the level of the rivets attaching the pan's handles. Add the saffron, rosemary and salt. Once the water has reached boiling point, leave it to boil for about 5 minutes on a very high heat. Then reduce to a medium heat and let it cook for 20 or 30 minutes.

Turn the heat back up and add the rice. The traditional way to do this is to make a cross shape in the boiling water and spread it evenly around the pan. Take this opportunity to taste and add salt as necessary.

Keep the heat high for 10 minutes, then reduce to half the heat for a further 10, until the rice is cooked.

Por último me gustaría presentaros a *Juan*, es el padre de Marina y Mateo, y ha heredado de su madre el amor por la cocina, uno de sus sabores favoritos es el de la “*Horchata*”. Le encanta invitar a sus amigos a cenar a su casa y es un estupendo anfitrión, ya que regenta un reconocido restaurante de Valencia; y para él es fundamental recibir a sus invitados y a sus clientes como se merecen, con una mesa bien puesta. Por ello nunca puede faltar el “*Lothe Plata*” o el “*Tapies Lino*” sobre su mesa.

Lastly I would like to introduce *Juan*, who is Marina and Mateo's father, and has inherited the love of cooking from his mother; one of his favourite tastes is the Valencian drink “*Horchata*”. He loves inviting his friends round for a dinner party and is a superb host, since he runs a renowned restaurant in Valencia; for him it is essential that his guests are received as they deserve to be, with a finely laid table. To do this, he can't go wrong with the “*Lothe Plata*” or the “*Tapies Lino*” on his table.

Horchata valenciana

Valencian “Horchata”

INGREDIENTES

- 250 gr. de chufa
- 1 litro de agua
- La corteza de un limón

- 1 cucharada de canela

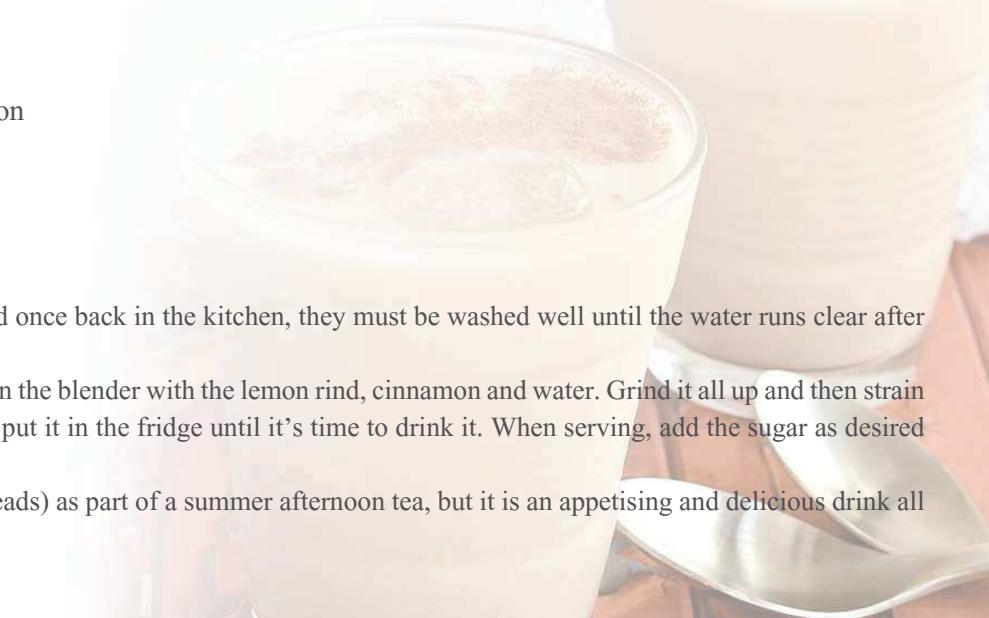

- Azúcar al gusto

PREPARACIÓN DE LA RECETA

En primer lugar, debemos encontrar las mejores chufas del mercado, y cuando las tengamos ya en nuestra cocina, las lavaremos muy bien hasta que el agua salga limpia. Dejaremos en remojo las chufas durante unas 12 horas.

Una vez pasado el tiempo de remojo de las chufas, las escurrimos y las pondremos en la batidora con la corteza del limón, la canela, y el agua. Trituraremos todo junto y lo pasamos por un tamiz o colador para ir extrayendo la bebida que será la horchata. Luego lo pondremos todo en el frigorífico hasta el momento de consumirla. Cuando la vayamos a servir le ponemos el azúcar que nos apetezca y más canela si hiciera falta (todo al gusto).

La horchata de chufa suele consumirse acompañada de fartons en las meriendas veraniegas pero es una bebida apetecible y exquisita durante todo el año.

INGREDIENTS

- 250 g tiger nuts
- 1 litre water
- 1 lemon rind

- 1 tablespoon cinnamon

- Sugar to taste

PREPARATION METHOD

Firstly, it's important to find the best tiger nuts at the market, and once back in the kitchen, they must be washed well until the water runs clear after touching the nuts. Then they should be left to soak for 12 hours.

When this soaking time is over, drain the tiger nuts and put them in the blender with the lemon rind, cinnamon and water. Grind it all up and then strain it through a sieve or colander to extract the hortxata drink. Then put it in the fridge until it's time to drink it. When serving, add the sugar as desired and more cinnamon if needed (all according to taste).

It is normal to drink hortxata with “fartons” (Valencian sweet breads) as part of a summer afternoon tea, but it is an appetising and delicious drink all year round.
